

School of Mathematics & Statistics

Maurice Belz Scholarships

Up to three scholarships of \$7000 are available to students in the Master of Science (Mathematics & Statistics) based on academic merit.

Eligible students will be:

- Enrolled (or intending to enrol) in the Master of Science (Mathematics & Statistics) at the University of Melbourne
- Specialising in statistics
- Undertaking a research project in one of: applied statistics, applied probability and stochastic processes, or operations research

To apply, you'll need:

- A statement explaining why you should be considered for the scholarship
- A copy of your academic transcript
- The names and contact details of two academic referees

Apply online by 8 March: go.unimelb.edu.au/4uax

For more information, contact:

Kirsten Hoak

Academic Support Office, School of Mathematics & Statistics

Ph: +61 3 9035 8013

Awards will be made on academic merit, determined by third year weighted average marks (or equivalent). The selection committee reserves the right to not offer a scholarship, or to award fewer than three scholarships. Scholarships may only be taken up after enrolment in the Master of Science (Mathematics & Statistics) is complete, and will not be offered in conjunction with other School scholarships.
