

Millis Jackson Research Grant Application Form

Through the generous support of the Millis Jackson Research Grant, funding is available to provide support for students undertaking research in biotechnology or environmental microbiology.

Submit completed forms to Aradhana Deoki aradhana@unimelb.edu.au

Student Name		Student ID	
Principal Supervisor			

Information to support application

1. Please describe the research-related activity you would undertake if you were awarded this grant. Include a justification of the activity against the aims of the scholarship (ie biotechnology or environmental microbiology).

2. Please outline the budget requirements to enable the described activity/project to be undertaken eg. An estimate of travel and living expenses, course registration costs etc.

3. Please describe how this scholarship will benefit your professional scientific career development.
